

THE INVISIBLE ARCHITECT

The Invisible Architect: How To Design Your Perfect Life From Within By John Novello **Amazon Bestseller!**

Billboard-Topping Smooth Jazz Keyboard Virtuoso Traces the Unseen Design of the Invisible Architect in His Life and Yours!

A clarion call to lean into its wisdom and get schooled in “spiritual mechanics” to go beyond a one-note life!

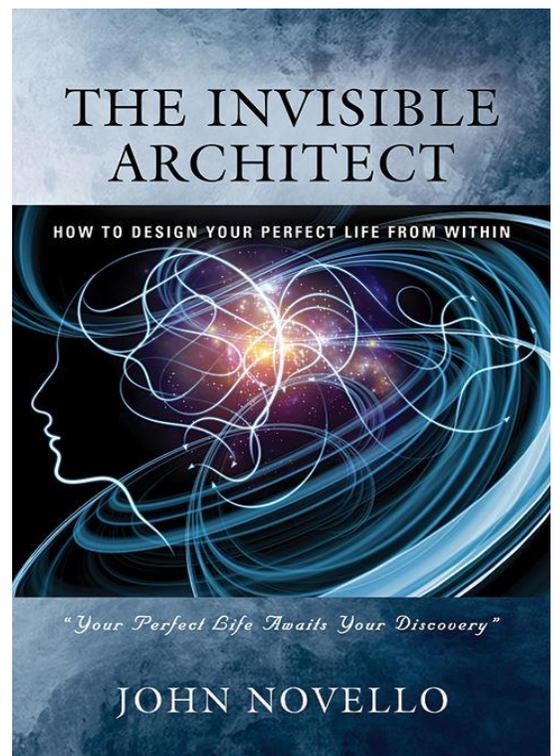

Watching the musicians on *The Lawrence Welk Show* at **three years old**, John Novello clearly heard a voice that told him to point to the keyboard on an accordion, saying, “That’s It! Point to It Now!” That was John’s first acquaintance with *The Invisible Architect* that began guiding and orchestrating his life.

Following the directives provided by his Invisible Architect, John created a life as a touring and studio professional musician that led him ultimately to become a Billboard Magazine top smooth jazz keyboard artist with his worldwide hit “*Good to Go*.” And to write the seminal manual, *The Contemporary Keyboardist*, that today is used everywhere for music instruction. John has played with or worked with Taste of Honey, Manhattan Transfer, Ramsey Lewis, Edgar Winter, Ritchie Cole, Chick Corea, Gerald Albright, Eric Marienthal, Tom Scott and more. And he is a founding member of fusion trio Niacin, along with legendary bassist Billy Sheehan and drummer extraordinaire Dennis Chambers, a group that has remained a defining leader in progressive jazz rock.

But there was a great deal of imparted infallible wisdom from the Invisible Architect that helped him achieve all of this! And today, he is committed to getting everyone acquainted with and listening to the Invisible Architect so they can streamline their path to success—in any aspect of their lives! His new book, ***The Invisible Architect: How to Design Your Perfect Life From Within*** is both a testimonial to the value of following that guidance and a treatise on how to make the magic of that infinite power work for you!

In one fascinating chapter, John recounts 19 stunning cases where the Invisible Architect provided clear direction on career, financial matters, medical choices, life and death warnings, vital connections with influencers including jazz superstars, moving cross country without resources, and following his dreams, (not to mention where to get a lift from disco diva Donna Summer!)... It further guided him to understand the nature of reality, and how we never really die.

While John had long become accustomed to listening to the Invisible Architect to guide his career movements without questioning, it wasn’t until his wife died after a tragic bout with cancer that John dived fully into the mysteries of the Universe, seeking to maintain a connection with her after death. That successful quest, recounted in his first book, *The Song That Never Ended*, led to a deep dive into the science of metaphysics and the practice, including instigating several out-of-body experiences. He takes you along on his “Cognitions”—new understandings and deep ponderings learned along his quest—with questions at the end of each chapter allowing you to explore and apply them to your own life.

But being the technician that he is, John sought to know how to make some of his seeming serendipitous momentum-creating experiences occur more often—and at will. And that’s the core of ***The Invisible Architect***. It is a detailed, step-by-step manual of mastery on manifestation on-demand. And it’s done with the precision, pulsation and lyricism of a world class musician.

The Invisible Architect provides detailed insight on “spiritual mechanics,” what must transpire on both a personal and planetary level for intended perception to imprint a new reality.

In ***The Invisible Architect***, John further illuminates:

- **How to invite & connect to the Invisible Architect**
- **The fundamentals of designing your perfect life from within**
- **What does it mean to have a Success Mindset?**
- **The secret to Be-Do-Have manifestation!**
- **The Law of Cause & Effect**
- **Guarding against the “Desire Thieves?”**
- **What are “Money Antibiotics”!**
- **Mental Reboot Exercises**
- **What is Spiritual Marksmanship?**
- **How to use the Law of Thought Substitution**

The last chapters of ***The Invisible Architect*** are filled with specific scenarios that may seem very familiar to the reader and how these can be transformed into gateways to specific desires, along with exercises that will strength your “spiritual mechanics,” so you can design your perfect life!

John Novello is bringing the passion he has for music to transforming the lives of individuals who are stuck in a one-note life. There is a symphony of glorious experience waiting for those who are open to his message and his book.

THE INVISIBLE ARCHITECT

John Novello Biography

Sometimes you meet an artist that defies logic and reasoning. Their music takes you to another place and you're forced to reconcile the very existence of everything you know. Such is the story of keyboardist extraordinaire John Novello. So while it's almost an injustice to compress his biography into just one page, here goes:

After moving to Los Angeles, John quickly wound up playing with A Taste of Honey which then had a #1 song, "Boogie Oogie, Oogie"! That led to many other gigs playing with esteemed soul, pop, and jazz artists like Donna Summer, Manhattan Transfer, Ramsey Lewis, Edgar Winter, Ritchie Cole, to name but a few. Soon after developing a following of his own, Novello gave fusion fans a huge body of work with his group Niacin, a trio consisting of legendary bassist Billy Sheehan and drummer extraordinaire Dennis Chambers that has remained a defining figure in progressive jazz rock. Originally on Chick Corea's Stretch label, Niacin's experiential influence on modern musicianship can be compared to the shock wave created by Herbie Hancock with sonic surrealism. Then a few years ago in a show of remarkable diversity, Novello decided to go back to his roots and released his critically acclaimed "B3 Soul" CD and the eponymous single featuring John's soulfully smooth and funky B3 organ style that demonstrates his devotion to the art of the groove combined with the pre-eminence of unforgettable melody.

After leaving his keyboard B3 organ signature imprint on numerous transcendent recordings and shows, the story of the man, the music and the groove then came full circle this time on acoustic piano! In a span of just a few years, Novello released three CDs on the 529 Music Label – "Ivory Soul", "Crush" and "Good To Go" producing four top ten hits – "Crush", "Shuffle The Deck", "Skin In the Game" and "Good To Go" which reached #1 on multiple charts including the prestigious Billboard Smooth Jazz Chart! Novello's music infuses old-school jazz and a soulful funky R&B mix. Fans will hear that his new vibe is indeed a "return home" and yet a leap forward for this musician that was nursed on blues and soul jazz. Explains Novello, "I've played lots of music and what is important to me is my roots. This project is me coming back to those roots. Besides, I love playing 'feel good' music which touches the listener's soul."

In addition to John's musical accomplishments, John is an author & music educator, having written the best-seller industry keyboard method *The Contemporary Keyboardist*, published by Hal Leonard which includes three instructional manuals and three DVDs.

But now showing even more diversity, Novello has decided to enter the personal and spiritual development world with a self-help blend memoir book entitled, *The Invisible Architect: How to Design Your Perfect Life from Within*. *The Invisible Architect* is rare look into the inner world of acclaimed musician John Novello by the author himself and based on his discovery of an inner power we all possess but rarely knowingly use!

"There is a designer, a dream weaver, within each of us, awaiting our recognition," he says. "Once recognized, it takes our wishes, desires, dreams, thoughts, and beliefs, no matter how small or big, good or bad, and manifests them in the "garden of reality" proportionate to our focus, expectations, and faith."

THE INVISIBLE ARCHITECT

On-Air Introduction

Watching the musicians on *The Lawrence Welk Show* at **three years old**, John Novello clearly heard a voice that told him to point to the keyboard on an accordion, saying, “That’s It! Point to It Now!” That was John’s first acquaintance with *The Invisible Architect* that began guiding and orchestrating his life.

Following the directives provided by his Invisible Architect, John created a life as a touring and studio professional musician that led him ultimately to become a Billboard Magazine top smooth jazz keyboard artist with his worldwide hit “*Good to Go*.” And to write the seminal manual, *The Contemporary Keyboardist*, that today is used everywhere for music instruction. John has played with or worked with Taste of Honey, Manhattan Transfer, Donna Summer, Ramsey Lewis, Edgar Winter, Ritchie Cole, Chick Corea, Gerald Albright, Eric Marienthal, Tom Scott and more.
